

Join SanDiego350 to build the climate movement in San Diego!

SanDiego350 is an all-volunteer organization of diverse San Diegans concerned about climate change and its very real effects on our livelihoods, well-being, and the future for our children. We work to increase awareness of climate change and advocate for reducing greenhouse gas emissions.

What do we do? We connect with our neighbors and friends. We give community presentations. We testify at public meetings, meet with elected officials, and submit comments on local and regional policies, including Climate Action Plans. We hold marches, rallies, and public demonstrations. We are building a coalition against fracking, supporting divestment from fossil fuels, and advocating for policies that put solar panels on our rooftops – not dirty fossil fuel power plants in our neighborhoods.

Events

Monthly Membership Meeting

SD350's monthly meetings are a great way to learn about our teams, projects and upcoming events and meet our members. (We meet 3rd Tuesdays at locations around the County)

SanDiego350 "Intro Chat"

Intro Chats are geared to welcoming new members and helping them learn about our organization and activities. Meet members, ask questions, explore opportunities for getting involved. General in members' homes.

Calendar

Visit our calendar for dates, locations, and other info regarding our meetings, rallies, workshops, other events:

SAN DIEGO 350

CLIMATE CHANGE ACTION

“Global warming isn’t a prediction. It is happening. ...we can’t wait any longer to avoid the worst and be judged immoral by coming generations.”

– NASA’s James Hansen

“Game Over for the Climate”, NY Times, May 9, 2012

What has SanDiego350 achieved?

Here are a few 2014 accomplishments we’re especially proud of:

- Brought 1,500 San Diegans together for the People’s Climate March
- Supported a strong and enforceable Climate Action Plan through comments, letters, testimony, and meetings with elected officials
- Developed and delivered a climate change presentation for community groups, political clubs, faith groups and schools
- Held a one-day workshop for young people seeking to learn about and get involved in the climate movement
- Trained over one hundred San Diegans in civil disobedience to fight the Keystone XL pipeline
